[About.com Board games](#)

Despite its quick play, NANNON is a surprisingly complex game, full of fun for the backgammon expert and novice alike. By bringing younger players into the game, NANNON could lead to a Backgammon renaissance.

NANNON has gone down really well with friends of mine, its a good game to play in the pub when the conversation dries up!  
Katie, age 24, UK

The Nannon sets are pretty neat, I really like the game and hope it catches on! I've started playing a longer game using two boards to make a 12 point game!

Steven, age 35

I already played many games and must say that your game is really quite fascinating. The tin box also makes it a great gift!"
